Europe Day 2017  
May 9<sup>th</sup> 2017

To celebrate Europe Day, one of our HEs, Andrea Avogadro, owner of ElectricLand (<http://electricland.eu/it/home.html>) and his NE, Croatian photographer Tatjana IVEGEŠ-WILHELM, proposed to go around Verbania, on the shore of Lake Maggiore, among tourists proposing them to pose within a frame decorated with the stars of the European Flag.

We thought that was a great idea, therefore we proposed all our NEs and HEs to take a picture with their host/new entrepreneur and send it to us or post it on our FaceBook Page (<https://www.facebook.com/BeEuropeErasmusEntrepreneurs/>) with a short quote commenting how Erasmus Entrepreneurs is a good way of Celebrating Europe Day.

Here are the pictures we collected that Day.

1- NE Tatjana IVEGEŠ-WILHELM, preparing for the photographic session for Europe Day 2017, with colleague at ElectricLand

"Good Europe Day from Bruxelles, to everybody!

Today, as a young entrepreneur working in the very heart of the European Union, i feel blessed for this precious growth opportunity, and i really feel to celebrate Europe!

But I would also celebrate all the people that work to make this beautiful idea a reality, such as the ladies from Euroteam Progetti that supported me all the way through this wonderful journey!"

*Giacomo Talluri, NE at EuAbout with Host Paolo Sospiro*

"Reaching the core of the European headquarters. Meeting with Parliamentarians, organisations, professionals and partners from all countries. Working on socially useful projects. Living the vibrant life of Brussels. And doing my bit in developing this Europe of ours. All thanks to Be Europe and the Erasmus for Young Entrepreneurs programme!"

*(Arvin Eslami, NE from Italy, is in Brussels, the very heart of Europe, where he collaborates with HE Gabriele Sospiro at ECEPAA)*

“For us, a good way of celebrating Europe Day is working for social inclusion, equality and sustainability”  
*NE Elisa Secci with HE Duncan Walker at Walkinstown Green Social Enterprises Ltd in Dublin*

*Laura Crudeli, NE, celebrating with colleague Cristiana at Falk von Tettenborn Architects.*

"Participating in the Erasmus for Young Entrepreneurs Programme is a good way to celebrate the Day of Europe, because it is a good reflexetion of what European Union built in these last decades by creating a new European generation through knowledge and human relationships."  
*Davide Crepaldi, NE from Italy, and Host Juan Toribio Bueso at Textil Energy SL, Spain*

*NE Stefano Balestra and Host Fer Kok celebrating [#EuropeDay](#) making beer in Amsterdam.*

[#EuropeDay2017](#) for Vittoria Spinoni and her Greek host, Architect STAVROS POLYCHRONAKIS, the best way to celebrate is to eat traditional sweets. Enjoy!

(translation)

*I looked at the island disappear. Where I had reached the bottom of loneliness, where I had come upon the decisive friendships of my life, where I had starved, I had contemplated as from a far gallery the tragedy of the second world war. Where I had drawn the conclusions of what I had gone meditating during sixteen years. Where I had discovered the abyss of resignation, the virtue of detachment, the pleasure of sharp thinking, the drunkenness of the political creation, the thrill of the appearance of impossible things.*

*No existing party was waiting for me, neither was preparing to celebrate me, to welcome me in its lines... for now with me I only had nothing else than myself, a manifesto, some thesis and three or four friends...*
